

Document 9 — AI Disclaimer & Educational Use Notice (v3.0 — Updated)

ClarityCommand Classes™ · JoMar Business Solutions™

Effective Date: May 14, 2026 · Version 3.0 · Supersedes Version 2.1

1. Purpose of the AI System

ClarityCommand Classes™ may include artificial intelligence tools, automated coaching systems, educational assistants (including Leslie AI™), lesson recommendations, worksheet analysis, behavioral pattern prompts, and conversational educational support (collectively, the “AI Features”).

The AI Features are designed solely for educational and informational purposes. They are tools, not professionals.

2. No Professional Advice

The AI Features are not licensed professionals and do not provide:

- Legal advice
- Financial advice
- Tax advice
- Investment advice
- Therapy or mental-health treatment
- Medical advice or diagnosis
- Credit repair services
- Business consulting guarantees
- Government compliance determinations

You are solely responsible for all decisions, actions, financial choices, legal filings, business operations, communications, and personal outcomes arising from use of the Platform. For professional guidance specific to your situation, consult a licensed attorney, CPA, financial advisor, therapist, physician, or other qualified professional.

3. AI Limitations — Hallucinations and Errors

Artificial intelligence systems may produce responses that are inaccurate, incomplete, outdated, biased, inappropriate, legally incorrect, financially incorrect, or unsuitable for your circumstances.

AI-generated content may contain:

- Factual inaccuracies

- Incorrect calculations
- Outdated legal or regulatory interpretations
- Incomplete financial analysis
- Inaccurate recommendations
- Incorrect compliance guidance
- Misinterpretations of uploaded information
- Fabricated citations, case names, statutes, or sources

You must independently review and verify all AI-generated information before relying upon it. The Company makes no representation or warranty regarding the accuracy, reliability, legality, completeness, or suitability of AI-generated content.

4. No Guaranteed Outcomes

The Company and the Platform do not guarantee any specific result, outcome, approval, score increase, business success, financial improvement, emotional outcome, educational achievement, funding approval, government contract award, debt reduction, legal result, or personal transformation arising from use of the AI Features or the Platform.

All AI interactions, worksheets, templates, dashboards, examples, frameworks, coaching systems, financial tools, business systems, behavioral discussions, and lesson materials are provided for informational and educational purposes only.

Individual results vary significantly based on factors outside the Company's control, including user effort and implementation, financial circumstances, credit history, market conditions, lender requirements, government-agency decisions, legal and regulatory changes, business experience, personal decision-making, and third-party actions and responses.

Any examples, demonstrations, testimonials, simulations, case studies, sample approvals, projected outcomes, or illustrative scenarios are examples only and shall not be interpreted as guarantees of future performance. The Company makes no representation that any user will improve a credit score, obtain financing, receive loan approval, secure business credit, win government contracts, increase revenue, eliminate debt, achieve business growth, resolve legal or financial issues, experience emotional or behavioral improvement, or achieve any particular educational or personal outcome.

5. Mental Health and Coaching Boundary

Certain AI Features may discuss behavioral patterns, stress responses, emotional habits, hypervigilance, financial behaviors, relationship dynamics, decision-making tendencies, or personal-growth concepts.

This content is educational only and is NOT:

- Psychotherapy
- Counseling
- Mental-health treatment

- Crisis intervention
- Psychological diagnosis
- Medical care
- Licensed therapy

No therapist-client, counselor-client, or mental-health-provider relationship is created through use of the AI Features or the Platform.

If you are experiencing emotional distress, mental-health concerns, or a crisis, seek assistance from a licensed mental-health professional or emergency services. In the United States, the 988 Suicide & Crisis Lifeline is available 24/7.

6. CROA Educational Positioning

AI-generated dispute letters, goodwill letters, validation requests, credit analyses, and related credit-education outputs are self-service educational tools. The Company is not a “credit repair organization” as defined under the federal Credit Repair Organizations Act, 15 U.S.C. § 1679a(3), or under similar state laws. The Company does not contact bureaus, creditors, or collectors on your behalf, does not file disputes on your behalf, does not provide legal representation, and does not guarantee any credit outcome. You are solely responsible for reviewing AI-generated credit materials, verifying their accuracy, signing and mailing correspondence, and managing communications with bureaus, creditors, collectors, or lenders.

7. Sensitive Information — Do Not Submit

Do not enter the following into AI Features:

- Full Social Security Numbers
- Government identification numbers
- Full account numbers (bank, credit card, etc.)
- Login credentials or passwords
- Protected health information or medical records
- Any information you are legally prohibited from disclosing

If you have submitted such information against this guidance, you may request immediate deletion through the Data Rights Addendum (Document 6).

8. AI Training and Anti-Extraction Restriction

You may not use AI outputs, prompts, or platform content to train any AI or machine-learning model, fine-tune, distill, or adapt any model, create competing AI systems, extract prompts or prompt structures for resale or redistribution, build prompt libraries derived from Platform content, scrape or harvest outputs at scale, or replicate the proprietary educational architecture or sequencing methodology of Leslie AI™ or any ClarityCommand™ system. See Section 5 of the Digital Copyright & License Agreement (Document 8).

9. Verification Requirement

Before relying on any AI output for a legal, financial, tax, medical, mental-health, business, contracting, or compliance decision, you must:

- Independently verify the information from authoritative primary sources, and
- Consult a licensed professional qualified to advise on your specific situation.
